DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 - 12, drawn to a magneto-optical recording medium product.

Group II, claim(s) 13 and 14, drawn to a method of making a magneto-optical recording medium product.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, they lack a special technical features showing improvement over the prior art for the following reasons: the special technical feature is deemed to be a recording layer with a layered structure comprising a garnet ferrite recording layer, and at least one spinel ferrite layer, a rutile-type oxide layer or a hematite layer as an underlayer. Machida (U.S. Patent No. 4,883,710) teach a magneto optical recording medium comprising a substrate (*Figure 5, element 11*), a first magnetic layer comprising a spinel ferrite layer (*element 15*) and a second magnetic layer comprising a garnet ferrite layer (*element 17*) (col. 2, lines 3 – 60 and col. 11, lines 22 – 28).

3. No telephone call was made to request an oral election to the above restriction requirement, since the restriction required supporting evidence from the prior art (i.e. the teachings in U.S. '710).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1773

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
